From the Principal

The semester has come to an end and this is our last Newsletter for the term. I would like to thank you all for your support once again this term. I really do love being the Principal of our school! We have a fantastic school with extremely hard working, dedicated, passionate teachers and ES staff, a caring parent community and wonderful students who love learning!

Congratulations to you all!

Well done to the entire school community who participated in our assessment and reporting initiatives:

- ✓ Booking Parent/Teacher meetings via COMPASS
- ✓ Reading Student Semester 1 Reports using COMPASS

Special thanks to our amazing Office staff who were very busy as they supported our parent community with the new process.

Last night our Parent/Teacher meetings were also a huge success! If you were unable to attend, please ensure you make a time to chat with your child's teacher about their learning and progress.

VIP at TWPS

On Wednesday we were very lucky to have Bronwyn Halfpenny MP tour our school. We had a very serious conversation about our school grounds (including the rocks!) and the limited flat space children have to play.

We also spoke about the problem of TWPS only having a small Multi-Purpose Room and not having a school hall/gym! Bronwyn Halfpenny MP, was very supportive of Thomastown West PS many years ago when the school was rebuilt. We look forward to working with Bronwyn again and definitely appreciate any support she can give us.

Arrive on time at quarter to nine!

As I mentioned in a previous newsletter, from the beginning of term 3, all schools must advise parents and carers of unexplained absences on the same day.

From Monday 16th July, at 9:15am each day an SMS message via Compass will contact parents and carers in regards to their child's unexplained absences. (We had very positive results from our trial that began today.)

This means... From next term Compass will contact parents and carers <u>if their child is absent and parents and carers have not contacted the school explaining the reason for the absence.</u>

If your child is absent, please contact the school to explain the absence by:

- 1. <u>Using the link</u> provided on the Compass message you receive.
- 2. Calling the school: 94654317

Well done Mrs O

Congratulations to Melva Ouliaris who was the successful applicant for the part-time teaching position that was advertised at TWPS recently. Melva is replacing Val while she is away on Family leave and will share the grade with Alicia Bartholomew.

Goodbye Miss Fraiia

It is with sadness we farewell Mrs Rhiannon Fraiia, who will not be returning for the remainder of the year due to personal reasons. In six short months, she has made a significant impact on our entire school community. Miss Fraiia is a talented teacher who builds genuine relationships with her students. She creates a dynamic and active classroom whereby she effectively personalises learning for all children. She will be dearly missed by students, staff and parents. We wish Rhiannon the best of luck in her future endeavours!

Schools of Rock

On Wednesday our School Band travelled to Tullamarine to perform. Thank you to Mr Palfrey and Mrs Santiglia for accompanying the students in Mr Rosa's absence. Our students did an outstanding job and represented our school superbly! Well done!!

Question...

Have you read your child's report? If the answer is no... It's not too late! Please use the instructions on page 7 to access the Semester One report or please return the slip of paper requesting for the report to be printed.

Schools of Rock!

NAIDOC WEEK @ TWPS

Thomastown West PS will acknowledge NAIDOC week when we return in Term 3.

This year's theme celebrates the essential role that women have played - and continue to play 'Because of her, we can!' For this reason we are inviting significant role models from our community to join us in a special assembly on Wednesday 18th July at 2:30pm. We hope you can join us!

I hope you are able to have a wonderful holiday break with your children and enjoy their company. See you all Monday 16th July!

the Robot!

Hi everyone!

Yesterday I had the pleasure of attending "Schools of Rock" with the school band. It was fantastic to see so many future rock stars, the talent displayed throughout the day was amazing.

Of course, Thomastown West Primary's band were the best of all on the day! The band really brought the house down and the crowd went wild for them, what an incredible experience!

Mr Rosa has done a really great job of working with the band to get them to the high level they are at. Well done Mr Rosa!

Following on from this experience, I thought this week I would talk about the benefits of learning a musical instrument for children.

What are the benefits of learning an instrument?

It improves academic skills

Music and math are closely related. By learning scales and time signatures a child learns to divide, create fractions and recognise patterns.

It develops physical skills

By learning an instrument, kids improve their motor skills and physical coordination.

It helps with social skills

By performing as part of a group, kids learn about team work and how to relate to others.

It helps build self esteem

By taking on board constructive criticism kids learn how to accept feedback, learn from it and get better as a result.

And perhaps most importantly.... IT'S A LOT OF FUN!!

I hope all students and parents have a safe holiday break, I look forward to seeing you all in Term 3.

Think of a time when you had a BIG emotion... POSITIVE or NEGATIVE.

- Why did you react emotionally like that?
- What was the impact of the emotion on your behaviour?
- · How did it affect others?

Another quality speak from Generation Next Well Being Conferences:

Dr Justin Coulson is one of Australia's leading parenting experts and is a highly sought-after international speaker and author. He and his wife Kylie are the parents of six daughters.

Justin is an Honorary Fellow at the Centre for Positive Psychology in the Graduate School of Education at the University of Melbourne. He is a consultant to the Federal Government's Office of the Children's e-Safety Commissioner, and has acted (and continues to act) in an advisory capacity to well-known organisations including Beyond Blue, the Raising Children Network, Life Education, Intel Security, and the Alannah and Madeline Foundation.

More and more social media and gaming are determining both our children's and our emotions. BUT "catching" emotions begins when we are babies

and continues into adulthood.

Have you smiled at a baby and the baby smiled back at you? Did it create feelings/emotions of joy and love for both you and the baby?

All emotions, both positive and negative, are learnt from a young age.

Our emotions can determine what kind of day we and those around us may have. For example, if someone has been angry with us, we may resent it and pass our negative feeling to those around us through our words and actions.

When working with students I try to explore their emotions with them, and try to help them firstly to identify the emotion they are feeling; then secondly, look at what may have caused them to feel that way.

Students often identify how others around react and express emotions. Sometimes they 'don't know' because it has become a learnt behaviour.

Dr. Justin Coulson says:

- •Be aware of your emotions. Monitor them
- •Remember, calm is contagious... but so is crazy
- Stay in control
- •They're children and they'll act like one. You're an adult. How will you act?
- Connect before you correct
- Empathy is the key. Label their emotions. Be ok with emotions. Set limits on behaviour when things are calm
- •For long-term relationships, keep the relationship primary

Maybe use the school holidays to check in on your own emotions – are they impacting those around us. Did 'I wake up on the wrong side of the bed' and allowing that to control my actions and reactions.

Look back at your own upbringing. I often hear, 'Oh, I am becoming my mother/father!'. That's great if we have been nurtured positively and with understanding.

Our children are looking to us as models. Again COMMUNICATION IS KEY – TRY TO EMPATHISE AND SEE THINGS FROM THE OTHER PERSON'S POSITION/POINT OF VIEW.

HAVE A RELAXING AND FUN HOLIDAY BREAK!!

Great kids have great dads

A series of three interactive parent sessions for dads

Great parents bring up great kids and you can be that father or father figure you've always wanted to be.

In these sessions we will talk about what being a dad means to you and the ways you can raise healthy, happy kids. The sessions will be based on the 'Parents Building Solutions' package which delivers the topics participants want to discuss. These topics can include communication, discipline, resilience and feelings.

These sessions will be facilitated by Joanne Templeton from Parentzone Northern and Cal Revell from Brotherhood of St Laurence. Parentzone Northern is the regional parenting service for the Northern Metropolitan area of Melbourne. Parentzone and the programs it offers are funded by the State Department of Education and Training and the Australian Government Department of Social Services.
